

Senate Assembly Evoting Information

In November 2011, Senate Assembly approved the concept of electronic voting for selected action items of the University Senate as approved on a case by case basis by the Senate Assembly. Please see the complete text below.

An electronic platform, Simply Voting, has been adopted by the University of Michigan. This platform has been tested and will provide a secure and effective means of conducting the March 2020 SACUA elections.

Motion:

Senate Assembly approves conducting the 2020 SACUA elections electronically using the platform Simply Voting.

Senate Assembly Motion, November 21, 2011

The Senate Assembly hereby adopts the concept of electronic voting for selected action items of the University Senate as approved on a case by case basis by the Senate Assembly. All such votes shall be cast anonymously.
