Announcements

- **Brief discussion led by Counsel Lynch:** The role and philosophy of the OGC, how it views input from faculty, and how it uses such input. Examples of implementation of input from faculty.
- **Statement about Academic Freedom.** The Committee has been discussing the possibility of creating a document that can be endorsed as the Senate and the Regents position on academic freedom. Tom Braun has made me aware (Thank you so much, Tom!) of Statement on Academic Freedom: Adopted by the Senate Assembly on behalf of the Faculty Senate - January 25, 2010. I hope we can discuss this document with Counsel Lynch and use it as the foundation for a statement that the Regents may decide to use?
