2. Updates and events

[Provost's Seminar on Teaching - Generative AI & Teaching](#) – excellent event organization and the recordings of the workshop are now available.

3. Roundtable discussion on GenAI. We welcome suggestions, and below are topics proposed for discussion:

- How do you currently employ GenAI, and in what role?
- What concerns do you have regarding the utilization of GenAI?
- Apart from ChatGPT, are there specific GenAI tools you want to be available?
- Which primary GenAI application do you find yourself using the most?

4. Questions for Ravi Pendse:

- UM Chat GPT: Status updates on pending and uninstalled plugins.
- Usage charges for GenAI (e.g., Masey).
- Group GDrive storage policies, such as those for Labs, courses, Programs, Centers, etc. The existing 256GB individual member storage limit poses challenges for managing mCommunity Groups!
